

# FERVE'S SMALLEST BOOSTER

# FERVE *F-505*

## BOOSTER BOX

### JUMP-START

The **FERVE F-505** “Booster Box” allows you to jump-start your motorbike or car (12 V) when you run out of battery. It is a light, compact device aimed at both garages and individuals.

## CHARGE

The **FERVE F-505** “Booster Box” is the fastest and most effective solution when power is needed instantly. For instance, if your mobile phone battery is at 0%, the F-505 allows you to quickly charge it to full capacity.

# FUNCTIONS

## CHARGE

The **FERVE F-505** "Booster Box" can charge almost any electronic device (mobile telephones, tablets, laptop computers), as well as 12 V mobile devices. It also incorporates an LED torch with over 30 hours runtime and an emergency function.
